

### HOLLY'S ORGAN UPGRADE WISH LIST

ITEM	DESCRIPTION	QUANTITY	PRICE EACH*	TOTAL*	PICTURE**
OSI 61-note manual keyboard	The organ is played with at least one keyboard, with configurations featuring from two to five keyboards being the most common. A keyboard to be played by the hands is called a manual (from the Latin manus, "hand"); an organ with four keyboards is said to have four manuals.	3	\$ 3,500.00	\$ 10,500.00	
OSI 32-note AGO pedal board, finished to match	Most organs also have a pedalboard, a large keyboard to be played by the feet.	1	\$ 3,500.00	\$ 3,500.00	
Artisan Octo-flex solid state control system	<ul style="list-style-type: none"> <li>• Full record and playback built in with library manager on board. Save and Load any MIDI sequence via USB port.</li> <li>• Piston Sequencer and memory level save.</li> <li>• Almost unlimited memory levels for Combination Action resident in system.</li> <li>• Savable and Loadable Combination Actions via USB port in addition to the resident combinations.</li> <li>• High Speed Connection via network interface and cable.</li> <li>• WIFI Connection for uploads, diagnostics, and changes.</li> <li>• Full implementation of couplers, unification, bass and melody coupling included.</li> <li>• Wireless connection between console and chamber available.</li> <li>• Fully compatible with all former Artisan input and driver boards for ease of system upgrade.</li> <li>• Configuration files downloadable directly from console system. No more need to find the latest version files, etc.</li> </ul>	1	\$ 4,000.00	\$ 4,000.00	
Key contacts	When a key is depressed, a valve opens underneath a particular pipe. The means of connecting the key with that valve or "pallet" is called the key action.	215	\$ 100.00	\$ 21,500.00

### HOLLY'S ORGAN UPGRADE WISH LIST

ITEM	DESCRIPTION	QUANTITY	PRICE EACH*	TOTAL*	PICTURE**
Syndyne stop actions with engraved stop keys	Controls at the console called stops select which ranks and pipes are used. These controls are generally either draw knobs (or stop knobs), which engage the stops when pulled out from the console; stop tablets (or tilting tablets) which are hinged at their far end; or rocker-tablets, which rock up and down on a central axle. Different combinations of stops change the timbre of the instrument considerably.	56	\$ 100.00	\$ 5,600.00	
Thumb pistons	Pistons are buttons that can be pressed by the organist to change registrations; they are generally found between the manuals or above the pedalboard. In the latter case they are called toe studs or toe pistons (as opposed to thumb pistons).	16	\$ 100.00	\$ 1,600.00	
Toe pistons	Pistons are buttons that can be pressed by the organist to change registrations; they are generally found between the manuals or above the pedalboard. In the latter case they are called toe studs or toe pistons (as opposed to thumb pistons).	3	\$ 100.00	\$ 300.00	
Music rack and lights	Overhead organ lamps will help the musician see the music more clearly with less eye strain.	1	\$ 2,000.00	\$ 2,000.00

### HOLLY'S ORGAN UPGRADE WISH LIST

ITEM	DESCRIPTION	QUANTITY	PRICE EACH*	TOTAL*	PICTURE**
Arndt Swell and Crescendo expression shoes	An expression pedal is an important control found on many musical instruments including organs, electronic keyboards and pedal steel guitar. The musician uses the pedal to control different aspects of the sound, commonly volume.	2	\$ 1,500.00	\$ 3,000.00	
Output panels for organ chambers and wire	The output board interfaces between the CPU and all magnet coils, either in the console for the combination action or in the pipe chambers for windchest and swell shade control.	1	\$ 3,000.00	\$ 3,000.00	
Modification of console casework	An organ case is a free-standing structure that is essentially a wooden box open to the front. A chest is positioned at the bottom of a case, and the pipes above it are free to speak through the opening in the front. A separate case may be provided for each division of an instrument, or several divisions may be placed in one case.	1	\$ 3,000.00	\$ 3,000.00	
Klann 8-bell Zymbelstern	The Zimbelstern is a "toy" organ stop consisting of a metal or wooden star or wheel on which several small bells are mounted. When engaged, the star rotates, producing a continuous tinkling sound.	1	\$ 2,000.00	\$ 2,000.00	
<b>TOTAL</b>				<b>\$ 60,000.00</b>
